DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: the status of copending application has not been updated.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 1-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-37 contains the trademark/trade name OS/390. Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name OS/390 is used to identify/describe a file system and, accordingly, the identification/description is indefinite.

For the reasons stated above, art rejection has not been applied to claims 1-37 because the claim limitations cannot be ascertained.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
